

ZIP Code Searches

Are the OA meetings in your fellowship ready to be searched for by ZIP code? Our World Service Office has spent the last two years or so setting up a new search engine for OA meetings. Seekers will be able to search for meetings via ZIP code, instead of by town. This is a terrific way to help fellow OAs and potential OAs find our meetings.

It also means that every meeting needs to make sure their ZIP code is in WSO's meeting database. WSO has asked that all meetings re-register with the WSO. The form for doing so is the same form used for all group registrations (or information changes).

<https://secure.yourmis.com/oa.org/pdf/GrpRegFormUS.pdf>

You'll notice that there is a space for a ZIP code for the meeting. Please take the time to find out what your ZIP codes are and send them in.

Thank you for your service.
