Treasurer's Report July 2022 Conference Call

The Finances of the Region remain robust with Income exceeding expenses. As of mid-June our total income was \$15,053 and our total expenses were \$9267. We have received donations from 176 groups and intergroups over the last 6 months. Our major expenditures have been for the website upgrade. Thank you to Joel I and all those who have provided feedback and materials!

It has been interesting to see the changes in meetings and donations now that the COVID pandemic has eased up. Some meetings have chosen to become totally virtual while others have become hybrid. Some are back to face-to-face, but some are no longer in existence. Keeping the listings in our accounting software up to date has been a challenge! I want to encourage you to remind groups to register and/or change their status on the OA website so that we can be sure to credit them for their donations.

I am grateful to the many people who give service as group and intergroup treasurers. Keeping track of money is never easy! Make sure your Intergroups and Meetings know that they can find any forms for contributions on our website as well as a link for making donations online. Donations continue to come both by snail mail and online; most groups now get their receipts online as well, which makes my life easier!

Thank you all for your service and I look forward to seeing you at Assembly this fall!!!
