PIPO REPORT OCTOBER 23-25, 2026

We were working with Milwaukee Area Intergroup to get a working knowledge of their ways to contact newcomers to learn about OA and to encourage them to come to meetings. They shared with us some of their promotion literature and a poster with Milwaukee intergroup information on it. Laurie as chair of the PI committee had been using Canva to alter existing posters and make new ones. She recommended that we open an account as she has found it easy to use and an advantage to her making posters. As a committee we signed up for a free subscription for Canva through Region 5. Other intergroups can participate in this account. There is a limited number of participants. A few of the committee members are on the account. We have just started exploring how to use Canva to alter posters and make new posters and fliers. They have a lot of templates and stock images to use.

Respectfully Submitted,

Kevin Firme
